### **WELCOME BACK!**

To help your child start this semester out strong, encourage good attendance habits. Attendance really does make a difference. The more students are at school and in class, the better they tend to do academically. Students who attend school regularly are more likely to graduate on time and find better jobs. Missing just 2 days a month means your child is missing 10% of the time they could have been at school. If there is something we can help with to ensure regular attendance or you have questions about your student's attendance or academic performance, please reach out to your student's teachers, assistant principal, or me.

Self-control  
is KNOWING  
YOU CAN,  
but  
deciding  
you  
Won't.

**Central's  
Counseling Theme  
for January:**

**SELF CONTROL**

### **ENROLLMENT INFORMATION NIGHT**

On January 10, 2023 at 6 PM, we will be hosting an enrollment information night. We will start in the Central cafeteria and then break out based on grade level. I will be there along with representatives from K-State Salina and Salina Tech to answer any enrollment questions you may have.

For our enrollment guide, follow the link below:
